METHOD 01 / MEASURE A RING YOU ALREADY OWN

1. Print this page at 100% or Actual Size (do not scale to fit).
2. Place an existing ring over the circles below.
3. The correct circle matches the inside edge of your ring.

MATCH THE INNER DIAMETER

Circle outlines must remain visible just inside your ring.

Between two sizes? Choose the larger one.

Ring sizes 1-6 and 35-36: use the circumference chart on page 2.

IMPORTANT

Measure the inside edge, not the outside diameter of your ring.

FOR A MORE ACCURATE FIT

Measure at the end of the day. Check that the ring will pass over your knuckle.

For wide rings, consider going up one size. If unsure, contact us.

Print verification: the 40 mm line on page 1 must measure exactly 40 mm.
